ABOUT

Hi, I'm a Computer Science student with a strong interest in building practical, real-world software solutions. I enjoy turning ideas into working systems—whether it's a small tool, a web application, or an automated process that solves a specific problem.

SKILLS

- HTML5, CSS3, JS
 - PHP
 - Python
 - Debugging and problem-solving
-

EDUCATION

TERTIARY EDUCATION

Bachelor of Science in Computer Science (BSCS)

Pamantasan ng Lungsod ng Muntinlupa | 2022 - 2026

UPPER SECONDARY EDUCATION LEVEL

Information Communication Technology (ICT)

Muntinlupa National High School - Main | 2018 - 2020

EXPERIENCE

ACADEMIC PROJECTS (SCHOOL)

- Designed and developed multiple school projects focused on programming fundamentals and system logic.
- Collaborated on group projects, handling coding, debugging, and documentation.

PERSONAL PROJECTS

- Developed personal tools and applications to solve real-world and personal workflow problems.
- Experimented with different programming languages and technologies to strengthen core skills.
- Improved code quality through refactoring, testing, and iteration.
- Continuously learning by building projects beyond academic requirements.
